

Sunshine Vitamin D3-K2 Complex with Organic Trace Elements & Prebiotic

Product Information

Our advanced D3-K2 formula provides comprehensive support for immunity, bone strength, and microbiome balance. Each capsule contains high-potency, bio-fermented D3 (4000 IU), K2 (MK-7), organic zinc and copper compounds, and 400 mg of inulin prebiotic – a combination designed for optimal absorption and synergy.

Active Ingredients per Capsule:

- 4000 IU Biofermented Vitamin D3 (Cholecalciferol)
- 200 mcg Vitamin K2 (MK-7: all-trans Menatetrenone)
- 15 mg Organic Zinc complex (Zinc gluconate, Zinc glycinate)
- 1 mg Organic Copper compound (Copper gluconate)
- 400 mg Inulin (Prebiotic fiber)

All active ingredients are derived through biofermentation – a natural process using microorganisms to produce bioavailable, organic-bound forms with superior absorption and efficacy. This method avoids synthetic additives or chemicals, ensuring a pure and natural result. Zinc participates in the function of more than 100 enzymes, supports immune cell activity, helps maintain normal blood sugar levels, and promotes healthy skin. Research indicates zinc supplementation can play a crucial role in supporting conditions such as diabetes, inflammation, and immune deficiencies.

Copper, similarly to zinc, contributes to a healthy immune system and protects cells from oxidative stress. Because increased zinc intake can raise copper requirements, this complex includes organic copper to maintain optimal balance.

Inulin acts as a prebiotic fiber that nourishes beneficial gut bacteria, supporting the microbiome's normal function. A balanced gut flora plays an essential role in immunity, mood regulation, and nutrient absorption.

- 5 active ingredients in one capsule
- High-dose D3 and K2 for immunity and bone health
- Prebiotic inulin for gut microbiome balance
- 100% vegan, gluten-free, lactose-free, GMO-free
- Manufactured in a GMP-certified facility
- Made in Hungary

Recommended use: 1 capsule daily with a meal

Packaging: 30 vegan capsules
